

Church of God & Their Works and Banker's Suicides

Fred R. Coulter—February 22, 2014

We have just watched the video showing how that 99% of the whole world lives in poverty. In seeing that, it shows us that Britain and America are Ephraim and Manasseh, and Northwestern Europe is part of the house of Israel, as well.

You take that off the map, take away Australia, New Zealand, Canada, America, Britain and Norway. Norway, by the way, is the smartest nation in the world money wise. They have saved and built for their population enough so that every Norwegian today has more than \$1-million in the sovereign Norwegian account, if allotted to every Norwegian. They owe no debt.

Dolores reminds me once in a while, 'Why don't we move to Texas?' I'm thinking maybe we ought to take up Norwegian, especially after you hear what I'm going to talk about today.

A comment was made concerning how infinitesimal that the Churches of God are. Yet, even with the expanding of websites and things we can reach a lot of people—which is true—and it also shows that God is doing a work with the few that He has called. Those who answer the call—remember *the called, the chosen and the faithful*—you're chosen, and if you're faithful to the end, you're going to help bring the Kingdom of God and peace to this world.

We also know that *the Sabbath is the first sign of God and His people*. Not very much is said of what the Seventh Day Adventists do, and they have many more churches and many more works. They may not understand everything in prophecy, because they don't keep the Holy Days.

I find a very interesting thing, which is this. The Seventh Day Adventists trace their origin back to Israel of the Alps. The video that is put out by the SDAs—which we send out—is called *Israel of the Alps*. I think the SDAs having the Sabbath, but they've got a lot of other false doctrine in there, as well.

However, let's read Rev. 2:18 and see about **the Church of Thyatira**. It is perhaps the church that has the most false doctrine. How God judges, how God looks at the heart, that's His judgment. It doesn't mean that for those who want an easy way, they can go join the SDA Church and everything will be 'hunky-dory.' We don't know that for a fact.

Revelation 2:18: "And to the angel of the Church in Thyatira write: 'These things says the Son

of God, He Who has eyes like a flame of fire, and His feet *are* like fine brass.'"

Isn't it interesting that the Protestants say, 'Your works don't count. You don't need any works.' They say, 'Unconditional love. Doesn't matter what you do, doesn't matter where you go, God's love covers you.' *Not so!*

Verse 19: "I know your works, and love, and service, and faith, and your endurance, and your works; and the last *are* more than the first." Very interesting—isn't it? You look at all the works that the SDAs have in the world.

As this pointed out with the earthquake in Haiti, one of the only buildings that remained standing and unharmed was the SDA hospital. They have in Loma Linda, California, one of the most extensive research centers and hospitals in America. As a matter of fact, there was a time when there were so many Seventh Day Adventists living in Loma Vista that they closed the post office on Saturday and opened it on Sunday. How about that?

Let's understand that God is doing more, with more people, than we give Him credit for. I'm going to bring you the prayer of the president of Uganda in one of the messages that I'm going to cover in the near future. We will compare what that prayer says to what now is happening in America.

Verse 20: "But I have a few things against you, because you allow the woman Jezebel, who calls herself a prophetess, to teach and to seduce My servants into committing fornication and eating things sacrificed to idols."

We understand that Jezebel was the daughter of the high priest of Baal. The high priest of Baal today currently resides in Rome, and he is called *the pope*. The great altar that you see, right at the top of it is a big sunburst identifying it as *Baal-worship*. He carries the staff. The most significant one that he says has a big sunburst on it. The SDAs have been infiltrated by the Jesuits; some of them have split off, just like other Churches of God, into various kind of denominations. When you follow the *Israel of the Alps* and the history of it, you can see this vividly that it took place.

Dolores and I were talking earlier that there was a documentary showing about the Catholic Church and it showed how many people they killed in martyrdom. The Waldensians were the ones who suffered the most and it was because they wouldn't

submit to accepting the pope as the Vicar of Christ on earth and they would not accept the sacrifice of the Mass.

As it comes down to the Church of God Seventh Day, as the Churches of God are, they have the bare minimum to enter into the Kingdom of God. God says, 'Strengthen the works that remain and I won't blot your name out of the Book of Life,' (Rev. 3). The Seventh Day Adventists have a little different situation. They have incorporated many, many doctrines of Jezebel.

1. the trinity
2. the Lord's Supper

They don't do it in the way that the Catholics do, but the SDAs have also allowed crosses in their churches. They keep the Lord's Supper the first Sabbath of every quarter. You can find that in chapter 'mmm' and verse 'mmm,' *because it isn't in the Bible.*

Whenever they follow what has been infiltrated and brought in by Jezebel's latter-day representatives, they are eating things sacrificed to an idol. Why? Even if they don't have a great idol there, anything that you do to change the Word of God is ***an idol in your mind!*** So, they have the doctrine, the first Sabbath of every quarter.

At the time that they were bringing the persecution against the Waldensians—if you don't have *Israel of the Alps* write for it and we'll send it to you.

Verse 21: "And I gave her time to repent of her fornication, but she did not repent."

Here is the great Catholic Church, that God gave space for repentance. There was a time at the Council of Trent, so I need to bring this up. This was the last time for them to repent. The Council of Trent took place over a period of 40 years, and it was called by the pope because of the Protestants leaving. The Protestants were saying 'solo scriptura,' Scriptures alone. That had an effect with the Roman Catholics. You will read this in Appendix N of *Rome's Challenge to the Protestants* in *The Holy Bible in Its Original Order*. That's why it is here, to educate people about the fact of the Sabbath and Sunday.

The Council of Trent had the 'sola scriptura' segment of the Roman Catholic Church. Those who said, 'Yes, the Protestants are right; we need to abandon Sunday. We need to abandon everything that is not in the Bible and we should keep the Sabbath.' That was the big controversy there.

Martin Luther and the Church of England decided that they would not keep the Sabbath, and

they both knew. Even today all the Protestants know which day is the Sabbath and so do the Catholics. When they decided to keep Sunday, instead of the Sabbath, that's when the Roman Catholic Church did not go through with the people of 'sola scriptura' within the Catholic Church, because they said the church changed the day.

That's the whole substance of *Rome's Challenge to the Protestants*. 'We changed the day. It is a Catholic institution. Since the Protestants say 'sola scriptura,'—but do not keep the Sabbath—therefore, we can rest assured that we have Scripture and tradition, because the Protestants follow *our tradition* of Sunday-keeping.' ***God gave them space to repent*** and right within their own council.

Remember this: God called William Tyndale. He was a Catholic priest. God called Erasmus to put together the Greek New Testament. He was considered a renegade in the Roman Catholic Church. He was a Dutchman. He produced his first Greek New Testament in 1516. This is what led to the conversion of William Tyndale.

We'll just do a little sidebar here with William Tyndale: This had to be the work of God to do it, to prepare Britain and America for receiving the end-time blessings. Tyndale came from Wales. Gaelic is so closely related to Hebrew that the structure, the word order and the meaning of Gaelic and Hebrew is like a dialect of English. The difference between 'ya'll' down South and whatever the expression is in Britain.

So much so that he said that in translating the Old Testament, it was a thousand times more easy than the New Testament. Why? *Because he knew Gaelic, English, French, German, Latin, Spanish,* and could have a conversation and shift from one language to the other in giving a conversation without missing a beat.

I've done a lot of study with William Tyndale's writings and I think in his writings, as I pointed out, that when he was alone, when he exiled himself over to Amsterdam in Holland, that in his writings he says that 'Christians need to keep the commandments of God from the bottom ground of their heart.' He didn't talk about the holidays. He did at first, but when he was working on the Old Testament, he was talking about the Holy Days.

I think that in God dealing with him as he was translating the Old Testament, that he himself began to keep the Sabbath. So therefore, I believe based on this evidence, that William Tyndale, coming from Wales had to be a Levite, because there are the greatest number of those from the tribes of Israel came from Levi. Also there, they had the

greatest singers in the world, because of probably the descendants of the temple singers.

That said, Erasmus is from Holland—that is Zebulun. There's an isolated book out about Holland and it's really good about the Zuiderzee and Zebulun and everything like that. I suspect—can't prove it, so this is speculation—that Erasmus himself, being a renegade Catholic priest wanting to return the whole church to the Scriptures only—and I think he was the one responsible for the 'sola scriptura' in the Council of Trent—had to be a descendant of the Levites as well *to restore the Word of God!*

There's a whole another history, how did we get the Old Testament? I'll just give you a little sidebar on that, too: The majority of the priests and Levites who escaped the destruction of the temple went first to Tiberius, which is north and east across the Jordan River and the Sea of Galilee. Later they moved to the coast. These were the western Jews who were the Sephardic Jews.

The other Jews from Babylon wanted to keep all of the traditions and they are the ones who basically were willing to leave the commandments of God. But in this colony of Jews on the coast of Israel migrated to Spain. There was a colony of Jews that faithfully preserved the Word of God.

They also had Maimonides, who was one of the scholars. He's the one who verified that the Calculated Hebrew Calendar is correct. He wrote *Sanctification of the New Moon*, which has been translated into English by Ganzfried and Goldin.

With the persecution against the Jews in the near 1300s, the Jews took the entire Old Testament over to Soncino, Italy. They had it printed, written out first, and then when the printing press became available, they printed the Hebrew Bible. With all the persecution of the Catholic Church against the Jews, against the true Christians, and calling them all kinds of names, one Jewish rabbi took the whole Old Testament up to Germany and gave a copy of it to Martin Luther.

When William Tyndale met Martin Luther, he was able to get a copy of the Old Testament from him. That's how we got the basis for the Bible today. I want you to think about how God, down through history, has used little insignificant things to preserve what he has to let it expand later on.

Thyatira had evangelists and missionaries that left the Alps of northern Italy and Switzerland who would go out as businessmen. They would take rolled up hand-written copies of the Gospel of John. As they were selling their wares, they would let the people know, 'I have something more valuable than what you have bought.' This is all in the DVD,

Israel of the Alps. They did a lot of evangelizing in Europe.

They all have to be part of the Church of Thyatira, v 22: "Behold, I will cast her into a bed, and those who commit adultery with her into great tribulation, unless they repent of their works. And I will kill her children with death..." (vs 22-23). That has to be the second death, because if you kill someone, they're dead. But if you kill them with death, that's double death.

"...and all the churches shall know that I am He Who searches *the* reins and the hearts..." (v 23). That's why what the SDAs are doing today only God knows their hearts. How many are truly converted? *God knows!* But they do a lot around the world, far more than ever done to our knowledge of the Churches of God, as we understand them.

"...and I will give to each of you according to your works. But to you I say, and to *the* rest who *are* in Thyatira, as many as do not have this doctrine, and who have not known the depths of Satan..." (vs 23-24). That a pretty low level—isn't it?

You think about the comparison of that with the Church of Philadelphia. 'Known the depths of Satan.' What is that getting into? *Satan worship, witchcraft, mysticism, all of those things!* So, it's a level above that. That's quite interesting to understand.

Also remember, that in the majority of this time that we are talking about, they didn't have Bibles like we have them. They couldn't have it where they could all sit down in a congregation like we do, and we say, 'Open your Bible and turn here. Let's turn there. Let's read this.'

He says: "...I will not cast upon you any other burden. But hold fast what you have until I come. And to the one who overcomes, and keeps My works unto *the* end, I will give authority over the nations" (vs 24-26). That's something—isn't it?

I think as this video said—this little video that we saw today (I'm going to make sure that we get it out to everyone in time)—I'll tell you one thing, *that showed precisely why the Kingdom of God has got to come to this earth!*

We sit here with everything that we have and God is going to hold us responsible for not using everything that we have. What are we going to tell God that we didn't pray when we should have? 'Oh, well, God, I was tired. Oh, well, God, I was too busy.' Compare that when it shows that 6-billion people in the world out of 7-1/2-billion make \$2 or less a day. Then think of our circumstances and you will know why the judgment's coming upon us.

Rev. 3 becomes the most important thing. We've covered this before, but what I'm going to cover and read to you in a little bit is going to shock you as to what has happened. Here is what needs to be for the people of God today. The **Church of God at Philadelphia** was the example for all churches.

He starts out with every one of them, Revelation 3:8: "**I know your works...**" If Christ and the Father are dwelling in us, they know our works—don't they? *Yes!*

"...Behold, I have set before you an open door, and no one has the power to shut it because you have a little strength, and have kept My word, and have not denied My name" (v 8). It is an indication that they had all the Word of God.

Verse 9: "Behold, I will make those of the synagogue of Satan, who proclaim themselves to be Jews and are not, but do lie—behold, I will cause them to come and worship before your feet, and to know that I have loved you.... [here's why]: ...Because you have kept the word of My patience... [all the Word of God] ...I also will keep you from the time of temptation..." (vs 9-10). ***That time is coming!*** Look at what they are doing right now. They are beginning to ban the Bible every place they can make a case to get rid of it.

The University of Iowa—who has a hotel that they rent out to students, parents, and things like that, and visitors that come to the University of Iowa—since it is state owned, they got a court order by those suing them—called Freedom From Religion—to ban Bibles in the drawer in every room in that hotel. Instead of getting rid of them all, what they have done is put some in the library down in the foyer of the hotel. ***But it's coming!***

There are atheist churches. What is happening to some of these big mega churches now? *They are going bankrupt!* The atheists are beginning to take them over. I'm going to bring some sermons on that a little later. I've got so much sermon material that needs to be covered.

What we need to do in all the Churches of God, including the SDAs—there are some SDAs who keep the Holy Days—there are some few who keep the Passover.

Verse 10: "...**temptation which is about to come upon the whole world to try those who dwell on the earth...**" A time when every human being is going to be affected; a time when we would know that that would be so.

Verse 11: "Behold, I am coming quickly; hold fast that which you have so that no one may take away your crown." God leaves the

responsibility to us. That's why a hierarchy that rules over the brethren, the brethren do the same thing that the children of Israel did to Moses. 'Moses, you speak to God and let Him tell you what He wants, and you speak to us and we'll do it.'

Whenever there is that layer of the ministry between the people and God, you're going to have troubles and difficulties. Did we not see that? Always when it gets down to it, it is a challenge: **Do you love God more than loyalty to an organization, when they start going astray?**

The Laodiceans: How many put people and socializing on the Sabbath as the most important criteria of their staying with the Church? I don't know, but I am sure there are a lot of them. I have heard of them. They have told me, 'We have our friends in our congregation, but as we're driving to church we get our meat from Christian Biblical Church of God by listening to a CD on the way to and from.' So, there are those out there.

For those of you hearing this: What are you going to do when the crunch comes? I'm going to show you a little later, not too far from the crunch coming.

Verse 15: "I know your works that you are neither cold nor hot..." You're comfortable where you are. Remember, the thermostat can go up and you don't know it, and the thermostat can go down and you don't know it.

"...I would *that* you be *either* cold or hot" (v 15). Because if they are unconverted, God says, 'I'll take care of them later in the second resurrection.'

Verse 16: "So then, because you are lukewarm, and *are* neither cold nor hot, I will spew you out of My mouth." We have seen that—haven't we? *Yes!* That has happened.

Verse 17: "For you say, 'I am rich, and have become wealthy, and have need of nothing'; and you do not understand that you are wretched, and miserable, and poor, and blind, and naked."

Isn't it always true that people get their minds so set that they fail to even see the imminent danger that they are in. We're going to see that. We're going to see that in this nation, because I'm going to read to you some things that are taking place right now that are foretelling what is going to happen. It'll be just like those on the Titanic. 'Oh, it's just an exercise,' until the water got them. It's just like the lifeboats, not everybody can get in.

Verse 18: "I counsel you to buy from Me gold purified by fire... [that's the Word of God; get with the Word of God; get with God] ...so that you may be rich..."—spiritually. We're going to see

everything that you have as digital wealth is going to go away and it's going to happen overnight. Then people are going to be scurrying around. 'Oh, let me go down to the grocery store and get some food.' The shelves are empty. That's what's going to happen to them *spiritually*.

"...and to anoint your eyes with eye salve, so that you may see. As many as I love, I rebuke and chasten. Therefore, be zealous and repent" (vs 18-19). I'll tell you the hardest thing in the world to do is to ***be zealous when you've got everything!***

- You want something? *Push a button!*
- Need something else? *Pick up the phone!*
- You want a pizza? *You can do it online, go pick it up, or they will deliver it!*
- You want to have some exotic food? *It's in the supermarket!*
- You want clothes? *You go to the store and there are all kinds of things there!*

Yet, back in your closet, you have so much that when you open it up, you've worn it all one time and you say, 'I don't have a thing to wear.' Or you have some good food to eat and you've eaten it so many times you say, 'I don't want that.' ***Think about everything that God has given, everything that God has provided!*** We need to really get out and work it and use it and develop it.

Verse 20: "Behold, I stand at the door and knock... [Christ is knocking on the door of your mind.] ...If anyone hears My voice and opens the door, I will come in to him, and will sup with him, and he with Me." That's quite something—isn't it? Strengthening their very weak and lukewarm conversion. So, ***the day will come!***

(go to the next track)

Now we're going to talk about money. Let's first of all start in Proverbs 23:4: "Do not weary yourself to be rich; cease from your own wisdom. When your eyes look upon it, *it is gone!* For surely *riches* make wings for themselves, and they fly *into* heaven like an eagle" (vs 4-5). Accurate description of a paper and digital economy.

Luke 12:13: "Then one from the multitude said to Him, 'Master, tell my brother to divide the inheritance with me.' But He said to him, 'Man, who has appointed Me a judge or a divider over you?' And He said to them... [all the people around there] ...'Watch out, and keep yourselves from covetousness, for no one's life is in the abundance of the things that he possesses'" (vs 13-15). What happens when you have a lot?

Verse 16: "Then He spoke a parable to them, saying, 'The ground of a certain rich man brought forth abundantly. And he was reasoning within

himself, saying, 'What shall I do, for I have nowhere to lay up my fruit?'" And he said, "I will do this: I will tear down my granaries and build greater *ones*, and there will I lay up all my produce and my good things. Then I will say to my soul, 'Soul, you have many good things laid up for many years; take your rest, eat, drink, *and be merry*'" (vs 16-19).

I don't know how many of you have seen this ad, but I think it's quite telling. It comes out and there unfolds a big flag. It says: Will your money last as long as your retirement? It's going to happen, especially those people who have reverse mortgages. Going to be just like this. 'I'm going to retire. I have everything that I have ever needed. I'm going to move to the Villages in Florida and play golf and enjoy the sun and just have a grand time.' Or wherever the retirement place happens to be.

Remember, all of the money today, in these investments, is digital. Which means it can be wiped out in an instant. All of those who are in charge of them are bankers, investment brokers. So, ***the day is going to come!*** I'll explain it to you here in just a minute that ***there are signs that that day is close!***

Verse 20: "But God said to him, 'Fool, this night your soul shall be required of you; and to whom will you leave what you have prepared for yourself?' So ***shall it be to the one who lays up treasure for himself, and is not rich toward God***" (vs 20-21).

- What is going to happen?
- What are the four signs of this taking place?

How many remember the sermon that I gave in 2008? Remember what happened in 2008 in October, just before the election? It just so happened right at that time that McCain was ahead of Obama. What happened? *The stock market dropped 500 points in about five hours*, because there was a sell-off and that involved a lot of investments and a lot of money and a lot of IRAs and 401Ks.

What happened? *They never found out who gave the order to sell!* I wonder who that could be? But you know that something that mammoth could not happen without the knowledge of the Federal Reserve. But nevertheless, it happened!

Obama had the perfect thing. 'We need to rescue the economy.' Even Bush, he had to agree to the bailout money. The most significant thing that happened was, not that Obama was elected President, that in itself is another whole story as we see today, but what did President Bush announce immediately at the instigation of the Federal Reserve? He said, 'We cannot have this kind of thing going on in the world banking system, so therefore we are forming the G-20.' Remember the

G-20? What was the G-20? It's more than 20 today. That was so that *all central banks in the world would be following the same regulations and be integrated into the same system* so that there cannot be a crash of a single currency.

What did I say at that time? *I said this is laying the basis for **the coming mark of the beast***, bringing in the whole world's financial system integrated. They've been working on this ever since. At the same time, the bankers have been using money worldwide. They bring this stock market up and make money. Then take it down and make money going down. They invest over here in currency and bring it up and then take it down, and make money going both ways. They have derivatives that they use. *Derivatives are bets!* It's like this whole room is a big, what they call 'throw-the-dice table.' They call it a 'crap' table, and they have many ways of betting. Same way with roulette wheel; they have bystanders who are not rolling the dice or betting on the roulette wheel, but they bet on the participants doing it.

In other words—Participant A: 'I'm going to bet \$100 that he put his marker on #6. I bet \$100 it's going to come up 6.' Others standing around say, 'No, I'm going to bet on this other guy. No, I'm going to bet on this other one.' All of those who are doing the side betting are similar to what is a derivative. You are working off of someone else's money just in case something happens or doesn't happen.

So, they have derivatives for insurance, payments of bonds, derivatives on banks and stocks and all of these things and all combined in the whole world today the derivatives of all the bankers—and it is mostly the western bankers—totals \$613-trillion!

That is like—you've seen these big displays, and I've brought this out before—the domino effect. You stand up all these dominoes and have a big pattern out there. Then you start the dominoes going and you tip the one; then all the dominoes start going down and the whole pattern eventually collapses. They even had it so they could make it run uphill.

That's what it's like today. Money is on the verge of flying away. There are plans afoot to collapse *all* the world's financial systems. How close and how far away are we from that? *I can't tell you!* It's going to have great repercussions. How many have been watching the riots in Kiev? *That is kindergarten compared to what is going to happen!*

There are many, many bankers involved. You have the super, super elite at the top. They are pulling all the strings. Then you have the second tier

who are the important ones like those who are in charge of big banks. Then you have the third tier, which are the middlemen. All of them have been in on these derivatives and ETFs. An ETF (exchange-traded fund) is a bet.

- They have *gold* ETFs
- They have *silver* ETFs
- They have *dollar* ETFs
- They have *foreign currency* ETFs

An ETF is this. You bet that it's going to up or it's going to go down and they pay you; or you pay them more if you lose. With the gold ETFs, through what is called the Forex or the Comex, which between America and Britain is the London Gold Bullion Board are the ones who set the price of gold. They have been suppressing the price of gold. It was up at \$1,900 an ounce and BAM! They brought it down below \$1,200 an ounce.

Why? They made money on doing it, but why did they do it? I remember the day they did it, it was called a 'naked-short.' What is a 'naked-short'? *You bet that it's going to go down!* When you make a mammoth 'naked-short' that collapses the price. The 'naked-short' was so overwhelming that it could only have come from the Federal Reserve.

They didn't do it individually. Why did they do that? Because of the Forex and the Comex, which is this: They had people invest and bet on whether gold would go up or go down. When their contract ended, they would be paid in gold or be paid in silver.

However, all of these various bankers were selling, selling, selling these positions. So much so that it has gotten to the point that they sold 50 positions for every ounce of gold. That means 50 different individuals, companies or corporations had an ETF that was to pay them in gold at the end of that contract on the same ounce of gold! That is a derivative.

The comment was made that there are two ideas in investing: the investor and the broker. The broker tells the investor it's going to go up, but the broker is betting on it going down. They put their investment betting on it going up and they make the money on the loss that they have.

It gets even more complicated, because the different ones in the ETFs said, 'We want the bullion, gold or silver.' You know what they told them? *'You cannot have it; you must take cash.'* Germany, so worried about its gold in America, asked for it to be sent back, repatriate the gold. We said, 'No! You cannot have it. Perhaps the best we can do is give it to you in increments.' Have you

seen any documentaries on Fort Knox? If you have, they are all 50-60 years old.

I need to make one correction concerning gold bullion. It wasn't titanium; it was tungsten that was used for fake gold bars.

Based on that and other stocks and bonds investments, and all of these are lying and cheating and fudging, what is happening around the world? Let me read you this article here,_[source unknown]:

New critical phase has begun. Bankers are dying.... [over 30 so far] ...Being killed, silenced, before offering damaging evidence, they are not committing suicide, rather they are being 'suicided,' as it is called. The common thread in most is the combination of Forex derivative fraud and Vatican involvement. Dead bankers do not talk. They will be dying in droves before too many more months. A list of professional hits exists.

Why? Because there are those at the lower level that it's so saturated down that they can see all of this is a lie. They are doing and saying things that they should not. In the light of this, here it is:

The victim bankers and financial firm directors know information that could change the world perception on major institutions ranging from Wall Street banks to London banks and Vatican banks to government ministries and what is it that they are trying to hide?

Not only how they made millions on your money and won't give it back, but also the connections of drug money. It is laundered by those that are mentioned, and how is it laundered? That's part of it. The other part are the ETFs and so forth.

What we will find out is this. It is not reported on the regular news. If you want to know about the death of bankers, go on the Internet and you will find it. So after this one here, and it's quite an article_[source unknown]:

The corruption next faces justice, whether in a court of law or a barrel of gun, who's extension covers hangings and building leaps. It must remind observers of the good old days when the Clinton witnesses were removed by the dozens. Old fashioned justice is happening. We should prefer that protective custody and witness protection be more effective.

The comment was made that it reminds of the *Godfather #3* movie. All too true. The Mafia

worldwide is also behind this. This world is in the grips of evil.

However, the stakes are too high and the frauds are in the trillions.

The banker suicide wave that started in late January has now become an epidemic, and it seems to be focusing on one bank: JP Morgan.

What company was responsible for the big dive in 2008? *JP Morgan*.

After the first suicide that took place in JPM's London headquarters, ending the life of 39 year old Gabriel Magee, a vice president in the investment bank's technology department, next it was 37 year old Ryan Crane, an executive director in the firm's program trading division, who died under still unknown circumstances.

The comment was made that one of the suicides off the roof of one of the buildings in London was a totally secure building. He could not have gotten to the roof himself. So, that tells you he was taken up there and said, 'You can do it yourself or we will assist you.'

Moments ago a third JPMorgan banker committed suicide, this time at the JPMorgan Charter House Asia headquarters in central Hong Kong, where a 33 year old man who was said to have been an FX trader for JPM, just jumped to his death.

Not much is known yet about the circumstances of the suicide, however according to early reports, the man was 33-years-old, surnamed Lee, and believed to be a Forex trader for JP Morgan.

Now here are some others:

A 33-year old JP Morgan Forex trader in the latest of a string of suicides takes his life in Hong Kong.

Let's understand this. I think we need to examine this about the coming of the beast. I think we need to connect all the dots that are taking place in the technology of the world. This is speculation:

In Utah there is this mammoth NSA, probably, Federal Reserve ***mammoth, millions of square feet of space for the most sophisticated and newest computers in the world*** that are going to be put in there. They are going to have the ability to track every human being on earth.

The Americans are building it, but who is eventually going to *own* it? Let's also understand that every central bank in the world is not owned by the country that they represent. They are foreign international banks that operate autonomously from the country that they are located in, including China.

After watching that thing that there are 400-million Chinese who make less than \$2 a day, even though China is going to become a great power, they are very precarious in their economic development.

Remember the connection of the establishing of the bank when Nixon went over to China in 1972. Who was with him? *Secretary of State Henry Kissinger*. Who does he work for? *The Rothschilds!* What is the truth of the central banks? *They control them all!* So, when in 2008 you all get on the same page...

Revelation 13:7: "And he was given *power* to make war against the saints, and to overcome them, and he was given authority over every tribe and language and nation." Worldwide government!

What we are reading here, and the collapse of the financial system, is going to *lay the groundwork to establish a world government*. It's going to bring the greatest crises in the history of mankind. In order for people to exist, they are going to have to come under a one-world currency. That will come first *before the mark of the beast*. The one-world government will come right on its heels. The only thing that has been stopping that, so far, has been the United States and Britain. *Because of our sins we are being taken down and we will not be a factor in stopping it!* This is gigantic

Verse 8: "And all who dwell on the earth will worship him, whose names have not been written in the book of life of the Lamb slain from *the* foundation of the world." At this point, there are going to be two camps. BAM!

1. the world and its whole satanic world system

2. the people of God

How that is going to come about? *We don't exactly know*, but I can tell you one thing, we are getting close to that happening. We don't know exactly when it is going to happen. I'm going to warn you and tell you in no uncertain terms, ***you must have some cash at home!*** Don't tell anyone about it. Don't let anyone know what you are doing. You must have some food. You must have some water, because when this hits, *you have got to lay low.*

There are going to be people in the streets. There's going to be rioting and fighting and looting! If you live in cities, big cities like New York, they aren't going to think one wit about killing someone to get something. They are going to be like the worst kind of animal that there ever was.

I've got another article here. I'll just tell you this, so I'll summarize it. Homeland Security and FEMA and the US Post Office have combined to order billions of bullets. FEMA has armored cars, because those in charge know what's going to happen.

Why do you think they've been trying to get gun control in America? *Because there are about 90-million guns in America!* They are going to have a fight on their hands, because all of the military people that are being released by the Administration now, because they won't fire on American citizens, I have read an article that they are secretly organizing. So, if you think that Kiev looks bad, you better take another thought. You had better prepare, because you are not going to be immune from starvation.

Now then, we don't know when that happens, how long it's going to be until the persecution really gets in earnest. They are killing those who profess Christ in how many nations of the world today? *The martyrs!*

Here's another article:

[Dead Bankers, Economic Collapse & the End of Humanity](http://thecommonsenseshow.com/2014/02/18/dead-bankers-economic-collapse-the-end-of-humanity/)

(<http://thecommonsenseshow.com/2014/02/18/dead-bankers-economic-collapse-the-end-of-humanity/>)

How many have seen the movie *The Firm*?

...in which an unwitting recent law school graduate went to work for a major Memphis law firm which paid its newest junior partners exceptionally well. Unfortunately for Cruise, the Firm was a mafia controlled law firm which specialized on legitimizing laundered money derived from organized criminal activities. When any of the lawyers

deviated from the criminal enterprise script, they were murdered. Anyone who posed a threat to the Firm, was murdered. The movie *The Firm* is not just a Hollywood movie, it is being acted out in real life.

[The Banking Industry Is a Criminal Enterprise Organization](#)

Doug Haggmann has recently revealed the existence of a massive Wall Street surveillance grid conducted between an interlocked triumvirate of the NYPD, the CIA and the banks themselves. And just like the movie, *The Firm*, the surveillance grid is designed to eliminate all people who could pose a potential threat to bankster operations. Haggmann also revealed that the Senate has looked at financial "irregularities" of JP Morgan...

What did we read?

...in a heavily censored report released in 2013. The cat is out of the bag. These murders represent damage control to keep the plot of a global financial meltdown being engineered by the banksters. Despite the cover-up, there is still enough evidence to conclude that a financial meltdown is in our near future.

That is the first paragraph of the report.

You can find it online: Dead bankers, economic collapse and the end of humanity. They will be able to bring things together and have a world government starting with a world-banking system.

Remember: the bankers have said for centuries, 'I don't care who governs as long as I control the money, I will control them.' So, this becomes a very serious thing.

Revelation 13:1: "And I stood on the sand of the sea... [representing people] ...and I saw a beast rising up out of the sea, having seven heads and ten horns, and on his horns ten crowns, and upon his heads *the name of blasphemy*. And the beast that I saw was like a leopard, and his feet like *the feet* of a bear, and his mouth like *the mouth* of a lion; and the dragon gave him his power, and his throne and great authority" (vs 1-2). What is going to be set up in this world government is coming direct out of the cauldron of Satan's last plan.

Verse 3: "And I saw one of his heads as *if it were* slain to death, but his deadly wound was healed; and the whole earth was amazed *and followed the beast*." That's why we have to remember what Jesus said, ***'Work while it is***

daytime. Work while you have the light, because the day is coming when the darkness will come and no one will be able to work.' I hope that all, wherever they are:

- really preach the warning
- really preach to the people
- really reach out to let them know what is coming.

Because here is what will happen: "...and the whole earth was amazed and followed the beast. And they worshiped the dragon..." (vs 3-4). When there is full satanic worship on the earth, *they are going to have to get rid of the Christians of every kind, and of every stripe*, whether they are just professing or whether they are true.

- The true ones are the saints.
- The ones who are not are the martyrs for Jesus.

However, there is going to be enough witness between what the churches do and what the two witnesses will do that out of it will come the 144,000 and the great innumerable multitude who will repent.

These are the things that are coming. When you see something like we saw concerning the way the rest of the world is economically, *we better take heed!*

I want all of you who are online, go ahead and look up these things online *while they are there*. You can see with your own eyes some of the things that are going to transpire. That's why when you look at solving the problems in any country, no government is going to be able to do it—in America, in Europe, in Asia or in Africa. *This system is coming!*

Here in America I don't think we can see very much repentance. Perhaps there may be some. Will it be enough to delay it? We do not know, but we can't be any Forex bets as it were and come up with nothing.

I didn't mean to scare you to death. I didn't read these things to make you frightened, but they are taking place and you're not going to hear of them on the news. 'Oh, what a shame that this person committed suicide,' if they even mention it. *There are some big-time things going on and we need to be prepared!*
